

## PUBLICATIONS

### Books:

*Vagueness in context*, Oxford, Oxford University Press, 2006; reissued in paperback, March, 2008.

*Thinking about mathematics: The philosophy of mathematics*, Oxford, Oxford University Press, 2000.

*Philosophy of mathematics: Structure and ontology*, Oxford, Oxford University Press, 1997; reissued in paperback, Autumn 2000.

*Foundations without foundationalism: A case for second-order logic*, *Oxford Logic Guides 17*, Oxford, Oxford University Press, 1991, reissued in paperback, Summer 2000.

### Editorships:

*Oxford handbook of the philosophy of logic and mathematics*, Oxford University Press, 2005.

Special issue of *History and Philosophy of Logic* 20 (2000), a Festschrift for John Corcoran (edited with Michael Scanlan).

Special issue of *Philosophia Mathematica* (3) 8 (2000), devoted to abstraction and neo-logicism.

Two special issues of *Philosophia Mathematica* (3) 7 (1999), 9 (2001), devoted to the proceedings of a conference in memory of George Boolos, held at Notre Dame, during the April of 1998.

*The limits of logic: Second-order logic and the Skolem paradox*, *The international research library of philosophy*, Dartmouth Publishing Company, 1996.

Special issue of *Philosophia Mathematica* (3) 4 (1996), devoted to structuralism. Contributors: P. Benacerraf, G. Hellman, B. Hale, C. Parsons, M. Resnik, S. Shapiro.

*Intensional Mathematics*, *Studies in Logic and the Foundations of Mathematics 113*, Amsterdam, North Holland Publishing Company, 1985, Contributors: S. Shapiro, J. Myhill, N. D. Goodman, A. Scedrov, V. Lifschitz, R. Flagg, R. Smullyan.

## Articles:

- “Towards a point-free account of the continuous” (with Geoffrey Hellman), *Iyyun* 61, 2012, 263-287.
- “Revising logic in light of paradox”, in *Insolubles and consequences: essays in honor of Stephen Read, Tributes 18*, edited by Catarina Dutilh and Ole Hjortland, College Publications, 2012, 213-237.
- “An ‘*i*’ for an *i*: singular terms, uniqueness, and reference”, *Review of Symbolic Logic* 5 (2012), 380-415.
- “On Richard’s *When truth gives out*” (with Kevin Scharp), *Philosophical Studies* 160 (2012), 455-463.
- “Higher-order logic and set theory: a false dilemma”, *Philosophia Mathematica* (3) 20 (2012), 305-323.
- “Objectivity, explanation, and cognitive shortfall”, in *Mind, meaning, and knowledge: themes from the philosophy of Crispin Wright*, edited by Annalisa Coliva, Oxford, Oxford University Press, 2012, 211-237.
- “The company kept by cut abstraction (and its relatives)”, *Philosophia Mathematica* (3) 19, (2011), 107-138.
- “Mathematics and objectivity”, in *Meaning in mathematics*, edited by John Polkinghorne, Oxford, Oxford University Press, 2011, 97-108.
- “Reply to Gideon Rosen”, in *Meaning in mathematics*, edited by John Polkinghorne, Oxford, Oxford University Press, 2011, 112.
- “Addendum on Peter Lipton’s ‘Mathematical understanding’”, in *Meaning in mathematics*, edited by John Polkinghorne, Oxford, Oxford University Press, 2011, 55-59.
- “Theology and the actual infinite: Burley and Cantor”, *Theology and Science* 9 (2011), 101-108.
- “Foundations: structures, sets, and categories”, in *Foundational theories of classical and constructive mathematics*, *Western Ontario Series in the Philosophy of Science*, edited by Giovanni Soimmaruga, Dordrecht, Springer, 2011, 97-110.
- “Vagueness and logic”, in *Vagueness, a guide*, edited by Giuseppina Ronzitti, Dordrecht, Springer, 2011, 55-81.
- “Varieties of pluralism and relativism for logic”, in *A companion to relativism*, edited by Steven D. Hales, Oxford, Wiley-Blackwell, 2011, 526-555.

- “Epistemology of mathematics: What are the questions? What count as answers?”, *Philosophical Quarterly* 61 (2011), 130-150
- “Vagueness, metaphysics, and objectivity”, *Cuts and clouds: vagueness, its nature, and its logic*, edited by Richard Dietz and Sebastiano Moruzzi, Oxford, Oxford University Press, 2010, 149-162.
- “So truth is safe from paradox: now what?”, *Philosophical Studies* 147 (2010), 445-455.
- “Life on the ship of Neurath: mathematics in the philosophy of mathematics”, *Croatian Journal of Philosophy* 9 (2009), 149-166; reprinted in *Between logic and reality*, edited by Majda Trobok, Nenad Mišcevic and Berislav Žarnic, Dodrecht, Springer, 2012, 11-27.
- “The good, the bad, and the ugly” (with Philip Ebert), *Synthese* 170 (2009), 415-441.
- “Reference to indiscernible objects”, *The Logica yearbook 2008*, edited by Michal Peliš, London, College Publications, 2008, 223-235.
- “We hold these truths to be self evident: But what do we mean by that?”, *Review of Symbolic Logic* 2 (2009), 175-207.
- “The measure of Scottish neo-logicism”, *Logicism, intuitionism, and formalism*, edited by Sten Lindström et al., Synthese Library 341, Springer, 2009, 69-90.
- “Reasoning with slippery predicates”, *Studia Logica* 90 (2008), 313-336.
- “Identity, indiscernibility, and ante rem structuralism: the tale of  $i$  and  $-i$ ”, *Philosophia Mathematica* (3) 16 (2008), 285-309.
- “Frege meets Zermelo: a perspective on ineffability and reflection” (with Gabriel Uzquiano), *Review of Symbolic Logic* 1 (2008), 241-266.
- “Mathematical objects”, in *Proof and other dilemmas: mathematics and philosophy*, edited by Bonnie Gold and Roger A. Simons, Washington, D.C., The Mathematical Association of America, 2008, 131-156.
- “The objectivity of mathematics”, *Synthese* 156 (2007), 337-381.
- “Where in the (world wide) web of belief is the law of non-contradiction?” (with Jack Arnold), *Nous* 41 (2007), 276-297.
- “Burali-Forti’s revenge”, *Revenge of the liar*, edited by J. C. Beall, Oxford, Oxford University Press, 2007, 320-344.
- “Corcoran the mathematician”, *Current topics in logic and analytic philosophy*, edited by Concha Martinez, José L. Falguera, and José M. Sagüillo, Santiago de Compostela,

- Universidade de Santiago de Compostela, 2007, 271-288.
- “Philosophy of mathematics: 5 questions”, in *Philosophy of mathematics: 5 questions*, edited by Vincent F. Hendricks and Hannes Leitgeb, Automatic Press, 2008, 219-232.
- “Faith and reason: the perpetual war”, in *Philosophers without gods*, 2007, edited by Louise Antony, Oxford, Oxford University Press, 3-16.
- “All things indefinitely extensible” (with Crispin Wright), in *Absolute generality*, edited by Agustín Rayo, Oxford, Oxford University Press, 2006, 255-304.
- “Structure and identity” in *Modality and identity*, edited by Fraser MacBride, Oxford University Press, 2006, 109-145.
- “The governance of identity”, in *Modality and identity*, edited by Fraser MacBride, Oxford University Press, 2006, 164-173.
- “Computability, proof, and open-texture”, in *Church’s thesis after 70 years*, edited by Adam Olszewski, Jan Woleński, and Robert Janusz, Frankfurt, Ontos Verlag, 2006, 420-455.
- “Effectiveness”, *The age of alternative logics: assessing philosophy of logic and mathematics today*, edited by Johan van Benthem, Gerhard Heinzmann, Manuel Rebuschi, and Henk Visser, Dordrecht, The Netherlands, Springer, 2006, 37-49.
- “Externalism, anti-realism, and the KK-thesis”, in *A logical approach to philosophy: essays in honour of Graham Solomon*, edited by David DeVidi and Tim Kenyon, Dordrecht, The Netherlands, Springer, 2005, 22-35.
- “Context, conversation, and so-called ‘higher-order vagueness’”, *Proceedings of the Aristotelian Society, Supplemental Volume 79* (2005), 147-165.
- “Sets and abstracts”, *Philosophical Studies 122* (2005), 315-332.
- “Gurus, logical consequence, and truth-bearers: What is it that is true?”, in *Deflationary truth*, edited by Bradley Armour-Garb and J.C. Beall, Open Court Publishers, 2005, 153-170.
- “Categories, structures, and the Frege-Hilbert controversy: the status of meta-metamathematics”, *Philosophia Mathematica (3) 13* (2005), 61-77; reprinted in *Logicism, intuitionism, and formalism*, edited by Sten Lindström et al., Synthese Library 341, Springer, 2009, 435-448.
- “Logical consequence, proof theory, and model theory”, *Oxford handbook for the philosophy of mathematics and logic*, edited by Stewart Shapiro, Oxford, Oxford University Press, 2005, 651-670.
- “Higher-order logic”, *Oxford handbook for the philosophy of mathematics and logic*, edited by

- Stewart Shapiro, Oxford, Oxford University Press, 2005, 751-780.
- “Philosophy of mathematic and its logic”, *Oxford handbook for the philosophy of mathematics and logic*, edited by Stewart Shapiro, Oxford, Oxford University Press, 2005, 3-27.
- “Simple truth, contradiction, and consistency”, *The law of non-contradiction*, edited by Graham Priest and J. C. Beall, Oxford, Oxford University Press, 2004, 336-354.
- “The nature and limits of abstraction”, *Philosophical Quarterly* 54 (2004), 166-174.
- “Foundations of mathematics: metaphysics, epistemology, structure”, *Philosophical Quarterly* 54 (2004), 16-37.
- “All sets great and small: and I do mean ALL”, *Philosophical Perspectives* 17 (2003), 467-490.
- “Vagueness and Conversation”, in *Liars and Heaps*, edited by J. C. Beall and Michael Glanzberg, Oxford, Oxford University Press, 2003, 39-72.
- “Philosophy of mathematics”, in *Philosophy of science today*, edited by Peter Clark and Katherine Hawley, Oxford, Oxford University Press, 2003, 181-200.
- “Mechanism, truth, and Penrose’s new argument”, *Journal of Philosophical Logic* 32 (2003), 19-42.
- “Prolegomenon to any future neo-logicist set theory: extensionality and indefinite extensibility”, *British Journal for the Philosophy of Science* 54 (2003), 59-91, 160-189; reprinted in *The Arché papers on the mathematics of abstraction*, edited by Roy T. Cook, Dordrecht, The Netherlands, Springer, 353-382.
- “The guru, the logician, and the deflationist”, *Noûs* 37 (2003), 113-132.
- “Incompleteness and inconsistency”, *Mind* 111 (2002), 817-832.
- “Deflation and conservation”, *Principles of truth*, edited by Volker Halbach and Leon Horsten, Hänsel-Hohenhaus, 2002, 103-128.
- “The ‘triumph’ of first-order logic”, *Logic, meaning and computation: memorial volume for Alonzo Church*, edited by C. Anthony Anderson and M. Zeleny, Kluwer Academic Publishers, 2002, 219-259.
- “Modeling and normativity: How much revisionism can we take?”, *Agora* 20 (2001), 159-173.
- “Why anti-realists and classical mathematicians cannot get along”, *Topoi* 20 (2001), 53-63.
- “Frege meets Dedekind: a neo-logicist treatment of real analysis”, *Notre Dame Journal of Formal Logic* 41 (2000), 335-364, 160-189; reprinted in *The Arché papers on the*

*mathematics of abstraction*, edited by Roy T. Cook, Dordrecht, The Netherlands, Springer, 219-252.

“The status of logic”, *New essays on the a priori*, edited by Paul Boghossian and Christopher Peacocke, Oxford University Press, 2000, 333-366; reprinted in part as “Quine on Logic”, *Logica Yearbook 1999*, edited by Timothy Childers, Prague, Czech Academy Publishing House, 11-21.

“The work of John Corcoran: An appreciation” (with Michael Scanlan), *History and Philosophy of Logic* 20 (2000), 149-158.

“Neo-logicist logic is not epistemically innocent” (with Alan Weir), *Philosophia Mathematica* (3) 8, (2000), 160-189; reprinted in *The Arché papers on the mathematics of abstraction*, edited by Roy T. Cook, Dordrecht, The Netherlands, Springer, 119-146.

“Set-theoretic foundations”, *Analytic Philosophy and Logic: Proceedings of the Twentieth World Congress of Philosophy 6*, Philosophy Documentation Center, Bowling Green State University, 2000, 183-196.

“Introduction: abstraction and neo-logicism”, *Philosophia Mathematica* (3) 8 (2000), 97-99.

“New V, ZF, and Abstraction” (with Alan Weir), *Philosophia Mathematica* (3) 7 (1999), 293-321, 160-189; reprinted in *The Arché papers on the mathematics of abstraction*, edited by Roy T. Cook, Dordrecht, The Netherlands, Springer, 275-302.

“Introduction II”, *Philosophia Mathematica* (3) 7 (1999), 244-246.

“Do not claim too much: Second-order logic and first-order logic”, *Philosophia Mathematica* (3) 7 (1999), 42-64.

“Incompleteness, mechanism, and optimism”, *Bulletin of Symbolic Logic* 4 (1998), 273-302.

“Proof and truth: Through thick and thin”, *Journal of Philosophy* 95 (1998), 493-521.

“Logical consequence: Models and modality”, *Philosophy of mathematics today: Proceedings of an international conference in Munich*, ed. by Mathias Schirn, The Mind Association, Oxford, Oxford University Press, 1998, 131-156.

“Induction and indefinite extensibility: The Gödel sentence is true, but did someone change the subject?”, *Mind* 107 (1998), 597-624.

“The limits of logic”, introduction to *The limits of logic: Second-order logic and the Skolem paradox*, *The international research library of philosophy* (see above), xi-xxii.

“Intuitionism, pluralism, and cognitive command” (with William Taschek), *Journal of Philosophy* 93 (1996), 74-88.

- “Space, number, and structure: A tale of two debates”, *Philosophia Mathematica* (3) 4 (1996), 148-173.
- “Introduction”, *Philosophia Mathematica* (3) 4 (1996), 81-82.
- “Understanding Church’s thesis, again”, *Acta Analytica* 11 (1993), 59-77 (published in August, 1995).
- “Reasoning, logic, and computation”, *Philosophia Mathematica* (3) 3 (1995), 31-51.
- “Mathematics and philosophy of mathematics”, *Philosophia Mathematica* (3) 2 (1994), 148-160.
- “Modality and ontology”, *Mind* 102 (1993), 455-481.
- “Anti-realism and modality”, *Philosophy of Mathematics: Proceedings of the Fifteenth International Wittgenstein Symposium*, Vienna, Verlag Hölder-Pichler-Tempsky, 1993, 269-287.
- “Foundationalism and foundations of mathematics”, in *Proof and knowledge in mathematics*, ed. by Michael Detlefsen, London and New York, Routledge, 1992, 171-207.
- “Second-order logic, foundations, and rules”, *Journal of Philosophy* 87 (1990), 234-261.
- “Expressive completeness and decidability” (with George Schumm), *Notre Dame Journal of Formal Logic* 31 (1990), 576-579.
- “Structure and ontology”, *Philosophical Topics* 17 (1989), 145-171.
- “Logic, ontology, mathematical practice”, *Synthese* 79 (1989), 13-50.
- “The Lindenbaum construction and decidability”, *Notre Dame Journal of Formal Logic* 29 (1988), 208-213.
- “Principles of reflection and second-order logic”, *Journal of Philosophical Logic* 16 (1987), 309-333.
- “Turing projectibility” (with Timothy McCarthy), *Notre Dame Journal of Formal Logic* 28 (1987), 520-535.
- “Actuality and essence” (with William Lycan), *Midwest Studies in Philosophy* 11 (1986), 343-377.
- “Second-order languages and mathematical practice”, *Journal of Symbolic Logic* 50 (1985), 714-742.

- “Epistemic arithmetic and intuitionistic arithmetic” in *Intensional Mathematics* (see above), 11-46.
- “Introduction” in *Intensional Mathematics* (see above), 1-10.
- “Arithmetic Sinn and effectiveness”, *Dialectica* 38 (1984), 3-16.
- “On an empiricist philosophy of mathematics”, *Philosophia* 14 (1984), 213-223.
- “Mathematics and reality”, *Philosophy of Science* 50 (1983), 523-548.
- “Remarks on the development of computability”, *History and Philosophy of Logic* 4 (1983), 203-220.
- “Conservativeness and incompleteness”, *The Journal of Philosophy* 80 (1983), 521-531; reprinted in *The philosophy of mathematics*, edited by W. D. Hart, Oxford, Oxford University Press, 1996.
- “Acceptable notation”, *Notre Dame Journal of Formal Logic* 23 (1982), 14-20.
- “Understanding Church’s thesis”, *Journal of Philosophical Logic* 10 (1981), 353-365.
- “L’argomento con la tesi di Church” (“Argument by Church’s thesis”), *Nominazione* 2 (1981), 195-199.
- “On the notion of effectiveness”, *History and Philosophy of Logic* 1 (1980), 209-230.
- “Incomplete translations of complete logics”, *Notre Dame Journal of Formal Logic* 18 (1977), 248-250.

## Other publications:

- “Realism and Naturalism, Mathematical”, *Encyclopedia of Philosophy, Volume 8*, second edition, edited by Donald Borchert, Detroit, Macmillan Reference USA, 2006, 273-279.
- “Bertrand Russell’s ‘On denoting’ (1905) and ‘Mathematical logic based on the theory of types’: metaphysics to logic and back”, *The classics of western philosophy: a reader’s guide*, edited by J. E. Gracia, Malden, Massachusetts, Blackwell Publishing Company, 2003, 460-466.
- “Necessity, meaning, and rationality: the notion of logical consequence”, *A companion to philosophical logic*, edited by Dale Jacquette, Oxford, Blackwell Publishers, 2002, 227-240.
- “Classical logic II: Higher-order logic”, *Blackwell Guide to Philosophical Logic*, Oxford, 2001, 33-54.
- “Systems between first-order logic and second-order logic”, *Handbook of Philosophical Logic 1*, second edition, edited by D. M. Gabbay and F. Geunthner, Kluwer Academic Publishers, 2001, 131-187.
- “Second-order logic” (824), “Effective procedure” (254), “mathematical structuralism” (543), *Cambridge Dictionary of Philosophy*, Second Edition, Cambridge, Cambridge University Press, 1999.
- “Second-order logic, philosophical issues” and “Church’s thesis”, *Routledge Encyclopedia of Philosophy*, 1998.
- “Theory of types” (p. 884), “Logic, History of” (496-500, with Peter King), “Impredicative definition” (397), “Formalism” (285-286), “Constructivism” (159-160), “Higher-order logic” (354-355), “Number” (629), “Skolem paradox” (827), “Metalogic” (555), “Categoricity” (125), “Independence, Logical” (398-399), “Church’s thesis” (135), “Mathematics, Problems of the philosophy of” (535-539), *Oxford Companion to Philosophy*, edited by Ted Honderich, Oxford University Press, Oxford, 1995.
- “Meta-mathematics and computability”, *Encyclopedia of the History and Philosophy of the Mathematical Sciences 1*, London, Routledge, 1994, 644-655.

## Work in progress:

- Logical pluralism/relativism* (under contract for Oxford University Press)  
*Logic for philosophers* (under contract for Oxford University Press)
